- Participants introduced themselves
- The meeting was held via Zoom

### Course Development

- Course syllabuses are ready. Course development groups starts the development of the courses based on the design.
- We aim for 30% progress, by the end of September 2020
- Max file size to upload in Moodle is 40 MB
- Videos lectures should be sent to Roger. He will manage to ingest them and then gives you a link to add to the moodle.
- A free source which can be used as reference: <https://www.spatialanalysisonline.com/>
- Decision: Course material will be open to public. "How? And through which platform?" To be decided later.

### DMT

- Ali Presented iMSEP and emGeo, two existing tools for data collection, management, sharing, and analysis for disaster management.
- Decision: DMT will be developed on top of iMSEP and emGeo.
- Decision: DMT will be an advanced early warning system, working based on user-generated data from Twitter.

### Dissemination

- Maria has submitted a paper to GI4DM conference ([www.gi4dm.net/](http://www.gi4dm.net/)) to describe the courses that her group is developing. The idea was welcomed and discussed further. It was decided that we will have a more active participation in the conference, via:
  - o Submitting 1 paper for each course (3 papers together by Maria, Yifang, Alexandre and their group);
  - o Submitting 1 paper about the whole project (Ali and Petter);
  - o Maria will ask the organizer if we can arrange a special session.

Papers will be published in Archives of ISPRS.

Deadlines: 15 July submission of the extended abstract; 1 October submission of the paper for the ISPRS archive.

- Alexandre is going to submit a paper, related to the project, to a national conference on SDI in Portugal.

Co-funded by the  
Erasmus+ Programme  
of the European Union
