

Steering Committee and Course Design Meeting

Online, Over Zoom, March 2020

Tuesday, 24 March 2020

Participants: Alexandre, Ana, Daniela, Rodrigo, Andreas, Petter, Maria, Gyözö, Boa, Yifang, Andrey, Luigi, Vasil, Liliett, Ali

- Ali started the meeting by welcoming the participants.
- The meeting in Milano was cancelled due to the coronavirus issues. A meeting was held instead via Zoom.
- **Requirements analysis**
 - UEM has collected 17 questionnaires filled, until today.
 - UniZambeze has collected 24 questionnaires filled, until today.
 - UniLurio has collected 10 questionnaires filled, until today.
 - ACM: It was decided that ACM make requirement analysis from a national perspective with detailed discussion with national disaster management board. They have adopted the questionnaire.
 - The final report will be produced by (**Deadline**) **May 24, 2020**.
- **Designing Courses**
 - A template for designing the courses was designed and agreed by all partners.
 - Each course coordinator will design the structure of its course, with the help of other partners, based on the template. **Deadline April 22, 2020**.
 - Ali will share template for designing courses with all partners.
Course 1: Disaster Risk and Climate Change
Course 2: Spatial Modelling for Disaster Analysis
Course 3: Public Participatory GIS and Spatial Data Infrastructure in Disaster Management
 - Ali will shares the Excel file in which responsible persons in each partner university, for developing courses, should fill their information.
 - A core module, one week, will be designed to be used in all courses. The core module includes introduction to GIS and RS.
 - QGIS will be used as the GIS software for the development of the courses.
 - For RS software:
 - Yifang and Maria will send a piece of code on Google Earth Engine to be run by Mozambican partners. The aim is to check if Google Earth Engine can be used as a tool for RS assignments. **Deadline to decided, April 7, 2020**.

- Yifang (with the help of Ana and Maria) will let us know about proper software (desktop) for RS analysis. **Deadline April 7, 2020.**
- Ana will prepare and send to Yifang and Maria a user guide on SNAP.
- iMSEP will be used for designing some exercises in the courses.
 - Ali gives access to all partners.
 - Click <https://imsep.gis.lu.se>
 - Create an account.
 - Send Ali your account to give you to Spatial Analysis Access in iMSEP.
 - Ali shares videos related to “introduction to iMSEP”.
- **Next Meeting**
 - April 22, 2020, 14:30 – 16:00, over Zoom
 - Ali sends invitation to Online Meeting.
